Sir,

We have the honor to enclose herewith a Plan showing a proposed Extension to our Existing Weaving Shed, such extension will necessitate our acquiring a portion of Government land including part of the Subhadar Chattaram Road, which portion of road - we understand - has been condemned by the Municipality in favor of the Sampagay Road

We have marked the proposed Extension in black dotted lines on the enclosed plan and have also marked in red dotted lines the extent of Government land we desire to purchase viz - from the bridge spanning the tank on the South to the boundary line of our land on the north and the Southern Mahratta Railway boundary on the west

Our reason for proposing to [illegible] the land, most of which is a series of dry nullahs or nullahs, is that we may be the only owners of land on the condemned Section of Road between the bridge and the proposed and partially made 1st Cross Road shown on the plan connecting Sampagay and Subhadar Chattram Road

We understand that the 1st Cross Road is awaiting completion pending an agreement between the Municipality and the owner of the land through which this road as proposed shall pass Therefore, we presume that the Government cannot have any serious objection to closing the Section of Subhadar Chattram Road required by us

The Extension proposed to our Weaving Shed is a much needed one as at the present and for a long time past, we are under great disadvantage as our present

In lieu of this section of the
